100 Dollars Reward.

I WILL give the above reward to any person who will return to my possession, negro LAWRENCE, who assumes the sirname of FENWICK. This fellow left my farm, on the Wicomico river, in Charles county, Md. on the 6th July, in consequence of his own outrageous conduct towards my overseer. He is a negro of a fine erect figure, good features, a smooth black skin, rather above the middle stature, of a youthful appearance for one of thirty years of age, and of great plausibility and natural smartness. His ears grow remarkably close to his head, and on the inside of his lower lip he has a white mark or spot. I purchased him 4 years ago of the estate of Mrs P. H. Courts, of this county. I am led (by circumstances which have come to my knowledge since he absconded,) to believe that he will endeavor to make his way to King George county, Va. ; should he not take this route, he will probably be met with in the District of Columbia, or in the upper counties of this state, on his way to Pennsylvania. I apprehend he will change his name, and if committed to jail, refuse to state to whom he belongs, as the misconduct which preceded his departure, & his absconding, have all appeared since to have been premeditated. He took all his clothes with him, of which he had a large number ; among them—a new bear-skin over-coat, a long close-bodied blue coat, a pair of striped jean pantaloons, one or more white waistcoats, besides many articles of coarse cloathing ; these, however, he will probably exchange, or sell them for cash to defray his travelling expenses.

I will give the above reward to any person who will bring him home to me, or *FIFTY DOLLARS* if confined in jail, and notice given me, so that I recover him.—Should he be taken out of the state, I will also pay all reasonable costs and charges which may attend the bringing him home.

BELIEVING as I do, that PROVIDENCE, at Fairfax Court-House, would be a suitable situation for mechanics of the above description, I offer to such, lots in that village for sale, on ground rent for ever—will build and furnish suitable houses and rent to them, or furnish brick to them to build with ; and invite any who feel disposed to settle there, for the purpose of carrying on their respective trades to advantage, to come and view the situation. It is a very public place, the centre of the county, where the superior and county courts are held. The Little River Turnpike Road passes through this little town from Alexandria westward, and where all the public meetings for the county, &c. are held ; and where trades of the aforesaid description being carried on, would meet with great encouragement, and be a public convenience to the country around. No situation can be more healthy—good water, and fire wood cheap. Mechanics of the above description must generally depend on the country people, farmers, &c. to be their customers. Here they would be in a convenient situation for all the purposes. I invite a call, and view for themselves. I would also furnish lots adjacent, from one to five acres each, for cultivation, pasture, &c. on moderate terms ; all of which can be shown, and terms made known, on application to RICH'D. I have every reason to believe that he is endeavoring to pass for a free man, and as such went off in some of the bay craft during the late fishing season. All masters of vessels are forewarned from harboring or taking into their employ said negro, under penalty of having the law rigidly enforced against them. THE subscriber has now for sale a number of the most valuable tracts, in both of those rich and improving bodies of lands, and can supply applicants with any number they may wish, and in any part of either territory. Every person who visits the Western Country, particularly those who intend settling there, should take with them a few quarter sections of those lands ; every man who has a young and growing family, and can spare a few hundred dollars, should not miss the present opportunity of getting some of those lands ; as it will insure to his children a greater certainty than any other investment he can possibly make for their benefit.—From the immense emigration to both Illinois and Missouri, particularly to the military lands, it is certain there must be a great rise in the price very soon, and those who miss the present opportunity, will never again have a chance to do so well. The patents will be sold very low, for cash, good notes or bonds at short dates, or bank stock in the Central Bank of Georgetown and Washington, and the Farmers and Mechanics' Bank of Georgetown. As I am a large dealer in *Military Bounty Lands*, I can supply any number that may be required.

COMMUNICATION.

The subject of a new jail has been before the public a length of time. They have considered this matter very frequently, and their minds by this time ought to be settled on the question. It is indeed a source of heartfelt regret, that this town should be so remiss in not having a proper place for the reception of those, who may be so unfortunate as to be incarcerated in the walls of a prison. That name alone, independent of any circumstance, fills the mind with a degree of horror; and if it were possible for a prison to possess all the delights of a palace, yet still the unfortunate confined in it would aspire after liberty. How different then is the situation of one, who is confined within the gloomy walls of a house, which may, by the picture of fancy, if not too by that of the reality, be fairly compared to the "*Black Hole of Calcutta.*" In a society which would boast of being enlightened by the principles of the christian religion, and restrained by the wise rules of law, it excites the surprize of the enquirer, when he beholds a jail so diametrically opposite to the above well known principles. He would suppose that *that* religion which is so pure in its origin and maxims, and which seems to be so much *admired here*, would certainly induce its followers to imitate, if possible, its Holy and Divine Author. A gleam of light would instantly break in upon his mind, and teach him to think, that misery would here find an alleviation of its pain. But when he directs his eye towards that abode, which is appointed by the laws as the residence of the criminal and debtor, he instantly finds that all his views of this christian people have been blinded by a FALSE SHEW of pretensions. He would expect to see a jail combining every comfort, as much as could be considered compatible with that institution; a house commodious, roomy and airy; not, to besure, a hall prepared for banqueting or the reception for the wealthy; but in every respect calculated to administer pure air to the sick—afford room to the unfortunate debtor, and possess distinct apartments for the felon and the victim of debt; but when he traverses this prison he discovers that virtue and vice here take up their abode together. He sees no distinction made between the hardened malefactor, and the unfortunate debtor; he beholds them equally the victims of a cruel and unrelenting magistracy, which consigns the virtuous and vicious to the same residence. After this, he would enquire in the language of surprize; is this a christian people who make no difference of abode between the hardy culprit who cuts the throat of a fellow being, and the good citizen who by misfortunes has become insolvent and unable to pay his debts? surely I am not in a christian country; I must be in the land of Turks. The latter cannot be the case; for I have travelled among that people who by us are termed barbarous, but I never saw any of their prisons so polluted as this. Mahometanism distinguishes between misfortune and crime; we do not. Their debtors have separate apartments; we have not. The warm and zealous faith of the Mussulman, guided by what he supposes a divine light, takes pity on the unfortunate, and punishes the wicked. Here in this prison they are equally punished. A poisonous atmosphere corrupts the fountain of life. One dull and noxious damp pervades the limbs of all; and pestilent heat, in this peculiarly hot season, excites malignant fever. You who are the guardians of the laws will have to answer for your crimes at the bar of God. You whose duty it is to see that a prison at once a proper receptacle of the base and the virtuous, should be built, have neglected this important point, until at last the vengeance of the Almighty will punish you for your inhumanity. The enquirer calls on you by every sacred motive which can have any effect on a human being, to look well into this subject, and by timely repentance to remedy this dreadful evil. Build at once a proper prison. Let Alexandria be no longer disgraced by what may be called a cruel feeling, lest the future visitor of this abode of filth, pestilence, and mixed villainy should think that you have lost your reason, and that it has fled to "savage brutes."

Baltimore, Sept. 8.

We yesterday stated, on the authority of the Patriot, that 29 new cases of fever had been reported for the 24 hours ending on the morning of Monday last. The statement was incorrect—it should have been 19. An unintentional error of this nature, will at all times afford us gratification in rectifying—as it will serve in some measure to allay the excitement produced at home and abroad, in relation to the supposed increase of fever for that day. For the 24 hours ending yesterday morning, only 13 new cases are known to have occurred. Although there is a decrease of *new cases*, it will be seen by reference to the list of interments, there is an increase of deaths by the malignant fever.

Philadelphia, Sept. 6,

Eighty-six persons, the greater number children, were buried in this city last week.

A case of death yesterday gave rise to a rumor, that it was occasioned by the yellow fever. On inquiry at the Board of Health, we find that Drs. Parish and Griffith, who attended the person, report it as a case of billious fever.

Dr Smyth's Specific against the contagion of the Typhus, Jail and Yellow Fevers, and Plague.

"Put some heated sand in a small earthen pipkin; place a tea cup filled with half an ounce of Vitriolic Acid; when warmed a little, add to it half an ounce of purified nitre, in powder—stirring the mixture with the small end of a tobacco pipe, or slip of glass; this process should be renewed from time to time, or if you wish to keep up a constant fumigation, it is only putting the pipkin over a lamp. For this important discovery the parliament of G. Britain has voted Dr Smyth 5000*l.*

RAPE!

On Sunday last Martin Quackinbush, a man of a family, and Glen Van Patten, a single man, committed a most unheard of brutal rape on the body of a girl aged about 16 years of age. We forbear particulars, as they were both apprehended the same evening, and are now in close confinement, to await their trial and punishment.

Cincinnati, August 21.

A storm of lightning and thunder visited our city on Monday last. The lightning struck on several places. Two men, John Barret of this place, and a Mr. Noble, of Columbus, were killed.

A severe shock of an earthquake, accompanied with an explosion as loud as that of a cannon, was felt at the village of St. Andrews, in Lower Canada, on Sunday the fifteenth instant.

St. Louis, (Missouri,) August 4.

THE RAIN.

On Saturday and Sunday last the heaviest rain fell which has ever been witnessed in this country. It fell incessantly for about thirty hours, during great part of which it came down in torrents. Travellers compared it to what they had seen within the tropics during the fall of the equinoctial rains.

The deluge of water has had the effect of checking the fall of the Missouri and Mississippi, and even set them to rising. They have risen about 2 feet since Sunday.

EXTRAORDINARY VISITATION.

A letter from Green Bay, Michigan Territory, to a gentleman in this city, dated July 19, 1819, gives the following very curious account of the visitation of that country by clouds of insects which will bear a comparison with the swarms which heretofore darkened the air of Egypt in their flight: [*National Intelligencer.*

"Within the last four or five days *the fly* has appeared—a non-descript perhaps in natural history—and covered the face of the whole earth, obscuring the sun, moon, and stass. I write literally, and without the least exaggeration. The heavens are darkened by them, as in a densely cloudy day; as far as the eye can discern, they fill the air, in every direction, as closely as a thick swarm of bees. Cornfields, &c. are prostrated with the clouds that settle upon them; trees are covered, and the branches bent and broken down. The barracks and buildings in the vicinity, at the ends and sides not exposed to the sun, are entirely black, the insects piled one upon another. These creatures, with their feelers, that protrude from head to tail, are about three inches in length, slough their skins, daily, it is said, by the inhabitants here; and, in performing this operation, and in dying by millions every hour, infect the atmosphere so that it becomes unfit to breathe. Cattle, swine, and Indians, are said to feed and fatten upon them.—The Frenchmen call them *musquito hawks*, because they make their appearance when musquitos are most numerous, and, as is supposed, prey upon, and drive them away. The flies themselves remain but six or seven days.

Extract of a letter, dated Havana, Sept. 1, received at Charleston.

"We hear from your side the water that the negociation of Don Onis, the Spanish Minister, with the government of the United States for the cession of the Floridas has not been ratified—this news has been confirmed by several recent arrivals from Cadiz. It created a considerable bustle among the "wise acres," but they have finally concluded, that war will not be the result, at least not immediately—those unacquainted with history, said a war waged by the powers of Europe, (England and Spain) against the United States, must tend to her total annihilation, "unless they would bend their stubborn knees and sue for mercy. "Others, better informed, kept silence—what's your opinion?—pray give us timely notice, let us have fair play.—Don't let them catch us knapping here, for God's sake—the prisons are very damp in this place I'm told, and a very scanty allowance of soup—we look to you for personal safety."

THE GREAT WESTERN CANAL.

This stupendous work advances with a rapidity that even disappoints its most sanguine advocates. The middle section will be finished this season. This, in connection with the Mohawk, will open a communication into the interior of our state, of the utmost consequence to the growth of our internal commerce. Strangers from all parts of the union, and from all parts of the world, flock to this noble undertaking, as they do to the falls of Niagara. Thus is the state of New York prosecuting a work with success that astonishes the civilized nations of the earth. [*New-York paper.*

From the Washington City Gazette.

NATIONAL FINANCES.

A sort of semi-official expose of the condition of our national financical concerns, for the *last quarter*, accompanied by some remarks respecting the payment of the Louisiana stock, on that portion, redeemable on the 21st of October next, has been given to the public in the Georgetown Messenger, of last Saturday. It furnishes, with an air of confidence, many facts, which must be interesting to the nation at large, though with what portion of prudence we will not pretend to say, as premature statements on a subject so fickle as finance, must always be received with caution: extracts follow—

Receipts arising from the Customs.

"The receipts into the Treasury during the present year, though they have fallen short of the amount which ought to have been paid, have nevertheless, exceeded the general expectation. From the *Customs* alone, the nett sum paid into the treasury during the *last quarter* falls very little short of *six millions of dollars*—exceeding, by one million six hundred thousand dollars, the amount received from the same source during the preceding quarter. Yet, in *no instance*, has any severity been resorted to in the collection. The indulgence granted, has indeed, been considerable, but in every case where further time was allowed, *additional security* has been obtained."

Receipts arising from the sale of Public Lands,

"The nett sum paid into the Treasury during the *last quarter* from the Public Lands, exceeded *one million one hundred thousand dollars*—besides a large amount of Mississippi stock, received for lands in Mississippi and Alabama.

"The whole of the nett receipts into the treasury for the half year ending on the 30th June last, may be stated as follows—

From the Customs	$10,330,000
—— Public Lands	2,293,000
—— Miscellaneous source	927,000
Total,	$13,450,000

Respecting late animadversions of the newspapers on liquidating a portion of the Louisiana stock at this embarrassing period, we are told that the commissioners of the Sinking Fund, without regard to the state of the Treasury, (which is certainly very unreasonable, if imperative)—

"Are required *by law*, to apply the extinguishment of the public debt, ten millions of dollars annually, (or so much of that sum as the conditions of the loans and the prices of stock will permit, *whatever may be the state of the country, or of the Treasury*; & *all* the public monies in the Treasury, *except six hundred thousand dollars*, are placed at their disposal for that purpose.—In addition to these ten millions, they are authorized to apply whatever other monies may remain in the treasury, more than two millions of dollars, after all the appropriations made by law are discharged."

"The instalment of the Louisiana debt, which the commissioners determined to pay off in October last, amounted to 4,977,950 dollars, of which 3,701,800 dollars was owned in Europe. The instalment payable next month is 2,688,093—of which nearly the same proportion is owned abroad. The whole sum, however, is payable in the United States. And if a part should be withdrawn from the country by the foreign owners, whatever inconvenience may be produced by the transfer, is chargeable to the LAW which permited foreigners to own the debt, and which prescribed the time of payment—and *not* to the *Secretary* of the *Treasury*—who pays only what the LAW enjoins."

As we purpose copying the whole article to-morrow, we forbear making any more extracts to day, except a paragraph of comment from the National Intelligencer, giving additional information on this topic, which states.

"That the bank of the United States has assumed the payment of that portion of the Louisiana debt redeemable in the next month, and that the foreign holders have cheerfully consented that the payment, by the bank, of the amount of the stock held by them, shall be deferred for three years, the bank paying them the same rate of interest as they have heretofore received fr. the government. The effect of this measure will be to leave this amount to be employed in the aid of commerce here, instead of sending it abroad to redeem the Louisiana stock, which is almost altogether held by foreigners. It is supposed it will have the further desirable effect of enabling the bank of the United States to rediscount a portion of the amount of the loans which they have drawn in by curtail since the first day of October."

Boston, September 2.

Sloop Earl Bathurst, Dunn, 25 days from Kingston, Jam. for Quebec, was towed into Nantucket on Saturday last, a wreck; having about 10 days previous been capsized off Cape Hatteras in a squall, and her mast cut away to right. She had on board eleven young men who went from Quebec for the purpose of obtaining commissions in McGregor's army, but learning of his escape, and the capture of the army, concluded to return. Spoke brig Victory, 2 days from Boston, who sent their boat and rendered them every assistance. Also, ship Louisa, from Bombay for Philadelphia, probably arrived.

Philadelphia, Sept. 6.

Arrived, ship Neptune, of Portsmouth, John S. Place, from Calcutta and Madras. Left the Sands Head on the 27th of March, and Madras on the 20th April. Left at Calcutta, brig Palmer, Knowles, for Philadelphia, in 55 days; Lascar, Ives, for Boston, uncertain; ship Clarissa, King, for Boston, in 15 days; Julius Cæsar, Marshall, for Philadelphia, uncertain. On the 26th March, an American ship entered the Hoogly, could not ascertain her name with the days; same day, brig Bramin, Bachelor, 120 days from Boston; also, under jurymasts, the English ship Lady Castlereagh, of 1200 tons—this ship was dismasted in the October gale of 1818 at Madras, where the Neptune sustained some damage in spars, rigging and sails, the loss of an anchor and cable. The Lady Castlereagh was fully loaded for England when the gale came on at Madras, and with great difficulty she reached Trincolmaly to refit, but could not procure masts, from thence she returned to Madras, where ship and cargo were sold, and she sent to Calcutta to be broken up, being so much wrecked in the gale. Also, the same day, passed in one of the pilot brigs with the crew and boat of the English ship Paragon, cast away on Sangor Sands, the 24th inst. in a southerly gale, vessel and cargo totally lost.

Extracts from the Neptune's Log-Book.

June 20th.—Lat. 34, 25. south, long. 26, 29, east, spoke British ship Bombay Merchant 74 days from London, bound to Bombay.

July 26th.—Lat. 5 south, 28 west long. was spoken by a 20 gun ship, with English colours, supposed her to be a Buenos Ayrean privateer.

Aug. 21.—Lat. 29, 35 north, lon. 67, 36 west, spoke schooner Nonsuch, of New-Orleans, from Havanna, 7 days out for St. Thomas.

On 22d.—Lat. 29, 45 north, long. 67, 48 west, spoke schooner Constellation, of and for Philadelphia, 6 days out, bound to St. Jago de Cuba.

On 23d.—Lat. 29, 58 north, long. 67, 57, west, at 5 a. m. discovered a sail bearing southwest, and appeared to have a light breeze, standing for us, (the Neptune lying becalmed) which brought the strange vessel at meridian about four miles off—at half past one o'clock p. m. a squall came on from the southward, when this vessel bore down for us, when within the distance of one mile and a quarter, she fired a gun and hoisted Spanish colors—captain Place not liking the looks and manœuvres of the vessel, would not heave too, but hoisted his colors—after a few minutes she fired a shot and made more sail;—The Neptune continued her course, the chace not gaining on us, she braced her main-topsail to the mast and fired another shot, which did not reach the intended object, though well directed, and in ten minutes after hauled off to east south-east. This vessel appeared of a Greek model, painted black, with a white streak round her, the knees of her cut-water and figure-head white, poop quarter-deck, projecting eight or ten feet over the stern, with quarter boards above it; the main-mast very near the stern post; could not ascertain what armament she had—a pole mizen top mast and small mizen foresail, and no top gallant sail, short pole fore and main top gallant masts and short flying jib boom, fore and main top very square at the head, with bands on the fore sail and fore top sail between the reefs, fore top gallant sails very small for its spars, and a short twist to his main top gallant sail—There is no doubt the Neptune would have been plundered by this vessel had she submitted to her powder and ball.

A like circumstance occurred to the Neptune on her outward passage to India.—On the 15th July, 1818, in lat. 27, 30 north, long. 31, 29 west, at 11 o'clock, p. m. the wind east south east, discovered a sail on

the larboard quarter—she hoisted a light and fired a gun—the Neptune altered her course two points, and put out her studding sails; the chase continued two hours, and fired several guns, but finding he could not come up with the object of his wishes, hauled his wind, when she was made out to be an hermaphrodite brig, probably a patriot privateer, or an African slave vessel bound to the coast.

JOHN HOPKINS

Hill and Dale, April 20.

Gunston for Sale.

THIS elegant estate is situated on the Potomac, 16 miles below Alexandria—it is bounded on three sides by the Potomac and Pohick creek, and contains nearly 3,000 acres of land, level and fertile, to which are attached six shad and herring fisheries, two of which command the river channel. This land will be laid off in four tracts, so as to have one or more fisheries to each; these tracts will be again divided if requisite. This estate is level and beautifully situated, very fertile, and remarkably healthy. Plaister acts with an effect equal to that of any part of Virginia or Pennsylvania.—I have used 500 bushels in twelve months, and such is its beneficial operation, that were I to keep this land I should considerably increase the quantity. A manufacturing mill is distant about two miles, on a stream navigable for vessels carrying 1200 bushels of wheat, where the Baltimore and Dist. of Columbia prices are given for grain: being bounded on 3 sides by water, a small extent only of fence is necessary to inclose the whole: it would be admirably adapted to grazing. The improvements are a large and very substantial brick mansion, 40 by 70 feet, with every necessary out-house, three commodious barns, houses for Negroes, and fish houses at each of the fisheries. 120,000 bricks and 1000 bushels of lime are just burnt on the premises. There is a considerable extent of live fence, both useful and ornamental, two orchards of well selected apples and peach, besides an abundance of other choice fruit. More than 150 acres are in clover, 200 in corn, and land is in preparation for sowing 250 bushels of small grain. Any quantity of hay can be cut from the low grounds, some of which (and all might,) have been reclaimed at a trifling expense. The river and creeks, abound with wild fowl, particularly canvass backs, the woods with deer and a variety of other game. Mules, cattle, highly improved sheep, farming utensels and household furniture can be had. The terms of sale will be accommodating. Property in any of the cities, negroes, bank stock, western lands, or lands near the Ridge, will be taken in payment.—Letters must be addressed to me at Pohick Church, Fairfax county, Virginia.

S. Drew, Merchant Tailor,

Removed from Fairfax-street to the corner of King and Columbus streets, and his prices falling

RESPECTFULLY acquaints his customers and the citizens in general that he has removed as above, where he will study to give satisfaction. He has by him a small but well assorted stock of goods, which will be found on inspection to be of the best quality, the whole of which he wishes to sell low for cash, and as further inducements to purchasers he offers to cut out any goods, bought of him to any size or pattern gratis.

S. Drew aware, of the advantage a ready money business has over one where long credit is given, thinks that a distinction ought to be made in the prices in each case: and as the price of provisions are low at present, he is glad to be able to announce to those customers who will feel disposed to pay him ready money for his work, that he will reduce the price of making to them according to the present journeymen's wages; and to prevent any supposed imposition on the one hand or disatisfaction on the other he is willing to be goverued by the printed regulations of prices by which the journeymen are paid in Alexandria.

N. B. Bread, flour, beef, groceries, liquors or any thing valuable taken in exchange for clothes.

S Drew has this day opened a tavern in the same house, where he has laid in a supply of Philadelphia and the district porter and ale, together with liquors of the best quality, and he feels confident that he shall be able to give satisfaction to all who will please to favor him with a call.—He is fitting up his house for the accommodation of boarders, travellers, &c. and from its central situation, good beds and stabling, together with other requisites, he presumes that it will be found a convenient establishment. may 25

PROSPECTUS

Of a new periodical work to be published in the city of Washington, entitled the

Washington Theological REPERTORY.

EDITORS. { Rev. Wm Hawley, Washington,
Rev. Wm. H. Wilmer, Alexandria,
Rev. Oliver Norris, Alexandria,
Rev. Reuel Keith, Georgetown.

Assisted by several other literary gentlemen of the Protestant Episcopal Church.

IF any apology were necessary for this undertaking, it may be found in the fact, that there is no publication on a similar plan, in all that section of our country lying south of New-York, and but one in the whole of the United States. It has been matter of equal surprize and regret, that the Episcopal Church should be so far behind other Christian denominations, in similar efforts to disseminate the principles of religion and piety. At a period like the present, when the Lord is preparing his way on earth, by the most remarkable efforts of human agency, and the most wonderful operations of his providence and grace—when we perceive in every part of Christendom, a praise-worthy emulation to share in the glorious work of filling the earth with the knowledge of the only true God, and his Son Jesus Christ; it would seem criminal for any to withhold their exertions, however feeble, in the great enterprize of human happiness and salvation. The editors have, therefore, felt it their duty to make this humble effort to supply this acknowledged deficiency on the part of the church in this section of the country, and to bear their share in the common exertions of Christians to promote the Redeemer's Kingdom. And having obtained the services of a gentleman, in whose talents and principles they have confidence, whose time will be wholly devoted to the superintendence of the work, they feel encouraged to solicit the patronage of the public.

The publecation will be conducted under the immediate inspection and control of the above named editors, who will form a committee to review every article intended for publication. The principles upon which it will be conducted are those of the bible, as illustrated in the articles, Liturgy and Homilies of the Protestant Episcopal Church. As members of this church the editors will feel bound to support the Apostolical character of her institutions, the pious tendency of her rites and ceremonies, and the evangelical nature of her doctrines But in these, and all other discussions, they hope never to loose sight of that great law of charity which teaches us to "preserve the unity of the spirit in the bond of peace."

Acting upon those catholic principles, so long and so successively pursued by "*The Christian Observer*," their chief object will be to inculcate sound theological knowledge, and to delineate and recommend pure and vital religion. They trust therefore, that while the members of every Christian denomination may find something edifying and instructive, none will discover any just cause for offence in the pages of this work. General subjects of biblical criticism, practical illustrations of scriptural truth, the biography of illustrious persons, evidences of the truth of revelation, essays on the history and polity of the church, reviews of interesting publications, religious, literary and philosophical intelligence—in short, whatever is connected with the promotion of religion, humanity and literature, will find a place in this repository.

The testimony of experience supersedes the necessity of dwelling on the advantages of a periodical publication on the plan proposed. Its obvious tendency will be to render the various departments of religious knowledge more easy and accessible, and give a more ready currency and wider circulation, to those great truths which involve the present welfare and future destiny of man.

It will tend powerfully to stimulate the exertions of the editors, and console them under the difficulties attendant on the prosecution of this work, amidst many other avocations, should it prove the means under the blessing of God, of enriching any of its readers with the saving knowledge of Christ, and prepare them for a participation in the felicity and glory of his heavenly kingdom. With this hope they commit it into his hands, and confidently solicit their brethren of the clergy and laity to assist them in carrying into effect the objects of the undertaking.

TERMS OF THE WORK.

A volume of the Repertory shall consist of twelve numbers, of which one shall be published on the first day of every month, containing thirty-two large octavo pages, stitched in blue, and attended with a table of contents.

The paper used in the work shall be good, and the typography executed with the greatest care.

The price of a volume is two dollars, payable in advance; to such as omit the advance, two dollars and fifty cents.

It is designed to enlarge the size of the work, without increasing the price, as soon as one thousand subscribers shall be obtained.

Communications and remittances may be directed to any of the editors, post paid.

Any person becoming responsible for five subscribers, shall receive a sixth copy gratis.

The first number may be expected in the month of July. June 26
